ABOUT ME

Passionate web developer focused on crafting responsive, intuitive, and impactful digital experiences. I thrive on transforming ideas into elegant, functional websites that users love. With a deep appreciation for design and detail, I continuously explore new technologies to build solutions that are both creative and meaningful. I believe in clean code, thoughtful UX, and continuous growth. Let's connect and create something great together.

EDUCATION

KIET GROUP OF INSTITUTIONS

2023-2027

Currently maintaining 8.5 CGPA in 3rd semester

12TH 95.2%

10TH 95.4%

PROJECT

Campus Connect - Peer-to-Peer Learning Platform

01/07/2025 to 10/07/2025

- Implemented user authentication and profile management using NextAuth.js and zod for validation.
- Designed a connections system with incoming/outgoing requests and real-time chat support using Socket.io.
- Utilized MongoDB and Mongoose to manage users, connections, and conversations efficiently.

MEDICO - Medical Management System

18/07/2025 to 1/08/2025

- Did user authentication using JWT tokens and bcrypt for secure login and registration.
- Designed role-based access control to differentiate functionality between doctors and patients.
- Integrated MongoDB with Mongoose for efficient data modeling and real-time updates of appointments.

TECHNICAL SKILL

- MERN STACK
- NEXTJS
- POSTGRESQL
- FIGMA/CANVA/PHOTOSHOP

ACHIEVEMENT

- First Runner-Up in Innotech' 24 ~ KIET Group Of Institutions
- Solved 500+ Data Structures and Algorithms problems on LeetCode and other platforms. ~ LeetCode Profile
