ABOUT ME

Passionate web developer focused on crafting responsive, intuitive, and impactful digital experiences. I thrive on transforming ideas into elegant, functional websites that users love. With a deep appreciation for design and detail, I continuously explore new technologies to build solutions that are both creative and meaningful.

I believe in clean code, thoughtful UX, and continuous growth. Let's connect and create something great together.

EDUCATION

KIET GROUP OF INSTITUTIONS

Currently maintaining 8.5 CGPA in 3rd semester

2023-2027

12TH 95.2%

10TH 95.4%

PROJECT

Campus Connect - Peer-to-Peer Learning Platform

2025-PRESENT

Built a full-stack web platform with Next.js to connect students across campuses for skill-sharing and mentorship.

- Implemented user authentication and profile management with dynamic skill tagging.
- Designed a connections system with incoming/outgoing requests and real-time chat support.
- Developed mentor discovery with filtering and infinite scroll for scalable user browsing.
- Utilized MongoDB and Mongoose to manage users, connections, and conversations efficiently.

MEDICO - Medical Management System

2024-present

Implemented a full-stack medical web application where patients can keep their medical records Stored

- Did user authentication using JWT tokens and bcrypt for secure login and registration.
- Designed role-based access control to differentiate functionality between doctors and patients.
- Integrated MongoDB with Mongoose for efficient data modeling and real-time updates of appointments.

TECHNICAL SKILL

- HTML
- JAVASCRIPT
- EXPRESS
- NODEJS
- NEXTJS
- FIGMA
- CSS
- REACT
- MONGODB
- POSTGRESQL
- CANVA
- PHOTOSHOP

ACHIVEMENT

- First Runner-Up in Innotech' 24
